

Cultural History of Wetlands in Coastal SC

Webinar series: Session 2

Wetland Management: Early History to Present Day

Wednesday, June 28

1:30 - 2:30PM

Registration Link

Learn about human - wetland interactions from early history to present day. This webinar series is designed for anyone working with wetland science, human dimensions, stakeholder engagement, or wetland education and outreach.

**0.75 AICP CMs and SCPEAC CECs
Eligible for Master Naturalist,
Master Gardener, and PEEC credits**

AGENDA:

- History of Wetland Management: Indigenous Communities; *Cheryl Cail, American Rivers and Waccamaw Indian People*
- Wetland Management: Cultural Connections; *Mazeika Sullivan, Clemson University*
- Activity: Identifying Wetland Stakeholders

Hosted by:

COOPERATIVE EXTENSION
College of Agriculture, Forestry and Life Sciences

S.C. SEA GRANT CONSORTIUM
Coastal Science Serving South Carolina

Human communities and wetlands have been interconnected throughout history. Society and culture have been shaped by wetlands and humans have impacted wetlands in turn. This is especially true in coastal South Carolina where wetlands are a dominant feature of the landscape and have played an integral role in the lives of residents, from the earliest indigenous people to the present day. In this two-part webinar series, participants will (1) gain an overview of human - wetland interactions throughout history (2) learn about cultural connections to wetland ecosystems and (3) learn best practices for stakeholder engagement in wetland management

Who Should Attend: Scientists/practitioners in environmental disciplines *who are curious about or need to better understand human dimensions*. Planners, land use professionals, and natural resource managers *working with wetland ecosystems and stakeholders*. Interpreters / Environmental Educators *who communicate about wetland ecosystems*. Cultural / Social organizations or non-profits *who work with communities with wetland connections*.

Registration is required. Attending both sessions is encouraged, but not required. You must attend the entire webinar to receive CEUs.
